Omni “Weight Loss” Fab Five

\$ 79.00 Omni Drops – Burns STORED FAT 24 hours a day/7 days a week! Drops are used in conjunction with a Very Low Calorie Diet (VLCD) from 21 to 45 days.

\$ 24.95 Fiber-n-Mor - These are also an absolute MUST. While you are on the drops program, there really isn't a heck of a lot going in, so it's hard to get it "moving out" if you know what I mean. These are REALLY high quality and quite comparable in price to anything you would buy OTC. Plus, they're full of acidophilus which is great for your digestive system.

\$ 56.60 Omni IV - This is a liquid vitamin that makes you feel FABULOUS! Balances your body, releases toxins, ALLOWS your body to LOSE WEIGHT properly and more efficiently! Your ENTIRE family should be taking Omni IV as their every day multi-vitamin!

\$ 42.95 Nite Lite - This is important for several reasons. It's a GREAT natural sleep aid, BUT it has two major bonuses in the weight-loss arena. First, when you take this product 3 hours after eating; right when you close your eyes to sleep, you burn more fat in 90 minutes than you typically do all day. Second, it has skin tightening and firming properties. So, as you're losing weight your skin shrinks along with you!

\$ 36.00 Charge Capsules - What can I say? Energy and Attitude in a Bottle! Natural energy, pain relief, anti-inflammatory properties, mood elevator... Bonus? It's also an Appetite suppressant!

To start the HCG Program you want to Purchase:

Omni Drops \$79.00

Omni IV Liquid Vitamins \$56.60

\$135.60 to Get Started NOW!!!!

Add Fiber-n-more, Nite Lite and Charge as you feel necessary, they will enhance your weight loss Journey!
